CONSTRUCTION

- Housing and electrical enclosure constructed in cold rolled steel with powder coated finishes
- Aluminum mudding flange features a unique 1/2" inner reveal that emulates drywall to create a perfect looking cut-out every time
- Linear, right angle and rectangular runs are standard
- A ceiling thickness of 1/2" to 1" can be accommodated. Modified for thicker ceilings upon request
- Modified configurations available upon request

LAMP ASSEMBLY

- LED module available in lumen packages of 3000 and 4000 (average rated life of 50,000 hours)
- Available in color temperatures of 3000K, 3500K and 4000K
- Solid aluminum adjustable, lockable double gimbals
- Gimbal adjustment does not require the use of tools
- High performance reflectors available in various beam angles
- Extruded aluminum heat sinks
- Can accept up to 3 optical accessories
- Standard on center lamp spacing can be modified upon request

ELECTRICAL

- Integral electronic drivers. Dimming options available
- Electrical enclosures conveniently mount onto the top of the housing with access through the inside of the channel for easy maintenance
- Multiple circuits available
- Fixtures are thermally protected and rated for through branch wiring

MOUNTING

- Suitable for drywall ceilings
- New construction housings
- Suitable for drywall, acoustic, wood, and various architectural ceilings
